

**a**bove: Model KI, Twin-X in Pine (Customer applied stain) Size: 42" x 85" with Modern Stainless Steel Flat track mounting hardware (JZ11-20)

**a**bove: Model KC, Colonial in Pine. Size: 42" x 85" with Traditional Black Flat track mounting hardware (JZ10-20)

**n**ote: All patterns appear on **one** side only; typically room side. The wall side is smooth, not patterned.

The **Ash Street barn door** systems are top hung, side fixed, straight sliding barn doors for residential or commercial **applications** such as loft apartments, restaurants, kitchens, **bathrooms** or as a room divider.

Our barn doors add **beauty**, stature, convenience, interest and **character** to any space; large or small.

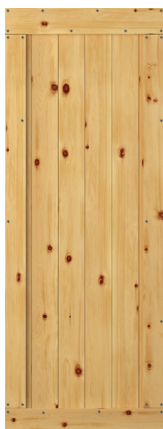

A barn door takes up **less** space than a traditional door and requires little to **no** maintenance.

Built for **functionality**, our doors are designed to take the wear and tear of everyday **living** while showing off its good **looks**.

fill in your barn door ordering code here

double  
door

To select a bi-parting door;

- 1) Determine required width of doors to suit wall opening
- 2) Select barn door style - you will need to order two (2)
- 3) Select hardware style - you will need to order two (2)

The example on the right shows:

- > Two (2) 48" doors mounted to
- > Two (2) 96" tracks mounted end to end yields a 192" track

Not to scale

Wood is a product of nature and will vary in color, texture and grain.
